At a minimum, the policy is required to cover medical requirements including medical evacuations / repatriations. The choice of insurer is yours.

EATING IN MADAGASCAR:

Malagasy cuisine is a flavourful blend of African, Asian, and French influences, with rice at the heart of many meals. Meals in Madagascar are typically served with a variety of tasty accompaniments, such as zebu (beef), chicken, pork, or fresh seafood, alongside richly seasoned vegetables and stews.

Local specialties include romazava (a fragrant meat and greens stew), ravitoto (pork with cassava leaves), and freshly grilled fish. Street food also plays a pivotal role in Malagasy culture, with snacks like mofo gasy (sweet rice cakes) and samosas with various fillings.

While traditional Malagasy fare is simple and hearty, most hotels and lodges also serve international dishes to suit a range of tastes. Dining in Madagascar offers guests an authentic glimpse into the island's diverse cultural heritage and its abundant natural produce.

Important Travel Advice: Tap water in Madagascar is not safe for consumption. Please be advised to drink bottled water only.

ACCOMMODATION:

Your accommodation has been selected for convenience of location, comfort or character, and can range from a business hotel in one city to a family-run guesthouse in a smaller town or a heritage-type hotel. In remote areas, accommodation may be of a lower standard and may not have western amenities. Hotels are generally rated as local four-star standard but do please note that there is no international classification system for hotels and differences in facilities and quality do exist between New Zealand and Madagascar. Rest assured that all hotels used by Wendy Wu Tours are regularly inspected by our staff and our partners to ensure that standards are met.

If you experience any difficulty, please speak to your National Escort or Local Guide.

TRANSPORT:

Coaches: Coaches with air conditioning are used on our group tours for city sightseeing, short excursions to the countryside and longer transfers where necessary. It may not always be possible to return to your hotel after sightseeing to freshen up before going to the restaurant for dinner.

Roads in Madagascar vary across the island, with some paved and well-maintained, whilst others may be unpaved or inadequately maintained and potholed. Please note, such road conditions, and/or weather conditions may extend driving times. For this reason, the travel timings listed in the sections above are approximations only. Facilities such as toilets along such routes are rare.

GROUP SIZE:

Our Madagascar Untamed tour will be no more than 12 travellers in each group, although you may encounter other Wendy Wu groups while you are travelling.

All our departures are guaranteed to operate with a minimum of 6 travellers booked (unless cancelled due to factors beyond our control). However, at our discretion we may operate departures with a smaller group size as we try to operate advertised departures wherever it is viable to do so.

DEVELOPMENT IN MADAGASCAR:

Madagascar is a country of remarkable natural wealth and cultural heritage, but it remains one of the least developed nations in the world. Many Malagasy people live in rural communities, relying on farming, fishing, and small-scale trade for their livelihoods. Infrastructure outside major cities is limited, and access to healthcare, education, and modern conveniences can be basic.

Power outages in more urban and rural areas are not uncommon, we recommend bringing a power bank, if possible, as electricity is typically unavailable whilst trekking. Despite these challenges, there is a strong sense of resilience and community among the Malagasy, and visitors will find warmth and hospitality at every turn.

Tourism plays an increasingly important role in supporting local economies, with community projects and conservation initiatives helping to create opportunities while protecting Madagascar's unique environment.

CLIMATE:

Madagascar's climate varies significantly across different regions. Expect a mild climate in the Highlands, warmth and dryness in the West and substantial rainfall in the East coast. The North is typically hot and humid, whilst the South is semi-arid. The dry season typically spans between April to October, while the summer months, which are the rainy season, spans from November to March.

TIPPING POLICY:

Tipping while on holiday is common in most parts of the world and Madagascar is no exception. However, it is not always clear who it is appropriate to tip and how much. Furthermore, travellers may not have the right amounts of cash available at the right time. In order to avoid any inconvenience Wendy Wu Tours operates a tipping policy where a stated amount is given to your national escort at the beginning of your tour and tips are disbursed amongst your main service providers (for example local guides and drivers) throughout your tour. The amount is designed to be at a reasonable level for travellers while being fair to the local people and includes a gratuity for the national escort. Any other tipping, such as tips for bathroom attendants and restaurant staff, is at your discretion based on satisfaction of services received, as are gratuities for additional requested special services.

We generally find that most customers appreciate the convenience of our tipping policy but we do recognize that it may not suit everyone. However, as this is a group tour we ask that everyone follows the same protocol to be fair to other group members and to ensure smooth operation of your tour.

APPROPRIATE DRESS:

When visiting Madagascar, dressing appropriately enhances both comfort and cultural respect. Lightweight, breathable clothing is ideal for the tropical and subtropical climate, while long sleeves and trousers can help protect against mosquitoes and sun exposure. In towns and villages, modest attire is appreciated, especially when visiting local communities or religious sites. Sturdy walking shoes or hiking boots are essential for exploring national parks and uneven terrain. We also recommend bringing with you, a hat, sunglasses, and a light rain jacket, as weather can change quickly in the highlands and rainforest regions.

CULTURAL DIFFERENCES:

Madagascar boasts a vibrant cultural heritage, with African, Asian and European influences. The official language in Madagascar is Malagas. French is also widely spoken, whilst English is mainly spoken in the bigger cities. Please also note, public displays of affection should be avoided. Your National Escort and/or Local Guide will be able to provide further details on local customs where necessary.

SOUVENIRS:

We want to be able to give you an opportunity to buy souvenirs so we include some stops at artisan workshops, with product unique to that region, with pieces available to buy. We understand that souvenir hunting is not for everyone, so we aim to take you to places that hold local interest. We trust you will enjoy these opportunities to learn about local arts and crafts and understand their historical and cultural importance.

VACCINATIONS AND YOUR HEALTH:

We recommend that you contact either your doctor or Health centre for advice on vaccinations and travel health. Safetravel has a comprehensive website that you may also find useful www.safetravel.govt.nz

BEFORE YOU LEAVE:

We strongly recommend registering your travel plans with www.safetravel.govt.nz as in the event of an emergency, New Zealand Consular assistance will be more readily available.

Up until the day you travel, it is vital you keep up to date and familiarised with the entry requirements as these can change at short notice. You are personally responsible for completing any entry forms, conducting any covid tests (if necessary), etc and adhering to countries' specific entry requirements. You can also access the New Zealand Government's travel advisory service for up-to-date information about your destination on the same website.

AFTER YOUR BOOKING:

Once you have booked with Wendy Wu Tours, you will receive a confirmation invoice including a visa application form (if applicable), and a help sheet. Your final documentation pack will be sent to you approximately 2-3 weeks prior to departure.
